

Redacted test documents

External review copies | 9 October 2026 | 10 distinct documents

Document register

01	Quantum simulation — controlled proof
02	Rogue fleet — controlled proof
03	Enterprise fleet: 1,000 / 5,000 — controlled proof
04	Data centre: 5,000 assets — detailed controlled proof
05	Data centre — controlled proof results
06	No Means No — separate-route denial proof
07	Enterprise fleet — controlled evidence appendix
08	Revoked authority — evidence and historical specification
09	Rogue fleet — historical test specification
10	Enterprise mobility — historical predetermined trial

Reading and claim boundaries

Results, scope qualifications and evidence limitations are retained. Internal code, repository identifiers, local paths, raw reproduction details and selected implementation material are removed. These copies are not substitutes for the underlying evidence.

Historical specifications retain their status at issue. Required or predetermined outcomes are not completed test results. Controlled proofs do not establish production deployment, realised savings, customer outcomes or quantum hardware advantage.

The archive contains individual PDFs and editable Word copies where available.
